## Education

- **Economics and Business Administration Bachelor - Colegio Mekhitarista**
  - 2011 - 2016, GPA: 7.66/10
- **Electronic Engineering - Universidad de Buenos Aires**
  - Status: In Progress
  - Studying Algorithms and Programming, Calculus II and Physics I
- **Technical Course in Programming – Universidad Tecnológica Nacional**
  - Status: In Progress
  - Passed Subjects: Programming I, Data processing systems, Mathematics I

## About me

I'm a 22-year-old student with big projects and ambitions in mind. I consider myself an autonomous learner since I introduced myself into programming and electronics by reading a few books and doing some online courses (as well as presential courses).

My short-term goals are simple, I'm seeking to start my technological career in a company where I can use my skills and education to help the company meet and surpass its goals, as well as absorb every type of knowledge that comes to my hands.

## Software skills

- **Programming Languages:** Python, Ruby, Javascript, C, C++
- **Technologies:** HTML5, CSS, Bash, Git, SQL, Node.js, jQuery, ReactJS
- **OS:** Windows XP, Windows 7, Windows 10, Ubuntu Server, iOS, Android.

## Projects

- **To-do Web app.**

App in process, created using Node.js to allocate a web server, ReactJS for it's visual appearance and use of MongoDB as database. Link to repository:
